

Corner Protectors

Corner protectors are ideal for use in car parks to prevent damage to vehicles from exposed structural columns. CP1080R is made from recycled rubber, while CP1090PE is manufactured from blow moulded polyethylene.

PART No.	DESCRIPTION
CP1080R	Corner protector 90 x 90 x 800mm recycled rubber (1.5kgs) – Black/Yellow
CP1090PE	Corner protector 100 x 900mm LLDPE (0.76kgs) – Yellow

Anti Collision Strips

These impact protection foam buffers are designed to prevent physical injury from bumps and knocks to exposed edges, corners and low head height protrusions in the workplace. Manufactured from soft closed-cell polyurethane in highly visible Black/Yellow stripes, they come with a peel and stick adhesive backing and are available in four profiles – Round 90° Corner, Rectangular, Square 90° Corner and Round Slotted Edge. Standard one metre lengths (see exact dimensions below) can be easily cut down to size with a sharp knife.

PART No.	DESCRIPTION
ACS-1	Impact protection foam buffer (Angle) 1000mm long x 40mm diameter x 20mm deep – Black/Yellow
ACS-2	Impact protection foam buffer (Rectangular) 1000mm long x 60mm wide x 20mm deep – Black/Yellow
ACS-3	Impact protection foam buffer (90 degree) 1020mm long x 60mm wide x 40mm deep – Black/Yellow
ACS-4	Impact protection foam buffer (Slot-shape) 1010mm long x 40mm diameter x 6mm slot – Black/Yellow
